ABOUT ME

I am from Manipur and I love to code. My ultimate goal is to attain a professional career on cyber security and software development fields while concentrating on practical issues which are significant in people's lives. My individual interest builds on the fact the execution of technology in our daily lives is very helpful in enhancing our lives. I am still aiming at knowledge acquisition and willing to work on issues that create a positive impact within society.

ACHIEVEMENTS

Certificate in MEAN Stack Development – VEI Technologies
Introduction to Cybersecurity – IBM (Coursera)
Introduction to Android App Development – Meta
First Prize in National Science Day Competition – GNI
Participation in Python Workshop
Participation in MGIT Hackathon
